

Applying Science to Security Consulting

TSG Solutions is committed to absolute customer satisfaction. We have developed a scientific approach to security consulting that analyzes business risk, quantifies asset criticality, assesses threats and measures security countermeasure effectiveness. Recommendations are provided with implementation plans, budgets and return on investment analysis. TSG works with each client to develop actionable short and long-term implementation plans that make the most efficient and effective use of their security resources and budgets.

TSG has the experience, motivation and resources required to conduct thorough risk assessments. We have the finest human, financial and technical resources available. Our competitive advantage is our people, our approach and our unwavering commitment to absolute customer satisfaction.

LAYERS OF SECURITY

INTEGRATED SECURITY

- 1 DETER 
- 2 DETECT 
- 3 DELAY 
- 4 MONITOR 
- 5 RECORD 
- 6 ALERT 
- 7 RESPOND 
- 8 LEARN
