

# TSG Solutions

## Global Risk Management & Security Engineering Services

### Airports/Transportation

#### Services:

##### Risk Management

- Risk Assessments
- Security Master Planning
- Policy and Procedure Development
- Security Training
- Chemical Security Services - CFATS

##### Security Engineering

- Security System/Access Control Design
- Vendor Bid Analysis
- Construction Administration
- On-Call Consulting Services

#### Experience:

**Category X Airport:** TSG participated in the design of an integrated Access Control System (including biometrics), CCTV Surveillance System, Digital Video Recording System, Intrusion Detection System, Central Command Station, and the Telecommunications System (wired and wireless) for the airport including all terminals, hangars, runways, parking facilities, administrative facilities and towers. The project also included technology research, RFP creation, vendor evaluations, engineering construction oversight services and system testing.

**Category X Airport:** TSG evaluated the Continuity of Operations Plan (COOP) and prepared three emergency response exercises. This consisted of both table top exercises and a full evacuation and establishment of operations at the emergency relocation site.

**Category X Airports:** TSG assisted with conducting perimeter security assessments at 4 international airports.

**3 Category X Airports:** TSG is responsible for on-call emergency security consulting services for 3 airports.

**Category X Airport:** TSG is responsible for designing security systems for a new State Police barracks for the Airport. This includes sighting, design, bid document development and construction administration services.

**Category X Airport:** Conducted a Suicide Bomber Prevention Course and Counter Surveillance Course for senior operating and administrative executives.
